Using impact evaluation to improve development

Description

Tweet

Date: 04 May 2010 17:30-19:00 GMT+1 (BST)
Venue: Overseas Development Institute, London (directions)

Speakers:
Ariel Fiszbein â?? Chief Economist, Human Development Network, World Bank
Professor Costas Meghir â?? Co-Director, ESRC Research Centre, Institute of Fiscal Studies
Chair:
Alison Evans â?? Director, ODI

How do you improve development effectiveness through the better use of evidence? Impact evaluation can build the solid evidence base on what works in development and, in turn, improve development policy. Ariel Fiszbein, Chief Economist in the World Bankâ??s Human Development Network will discuss how the Bank uses impact evaluation to inform policies on health, education and social protection. His presentation will be followed by a comment from Professor Costas Meghir, Co-Director, ESRC Research Centre.
