RD Comment: re â??*ICAIâ??s Approach to Effectiveness and Value for Money*â?• paper, see my Comments here. In summary:â?¢

- This paper is confusingly titled. It is really about the ICAIs overall approach to evaluation, and covers more than â??value for money and effectivenessâ?•
- The 4eâ??s analysis of the concepts of â??value for money and effectivenessâ?• has potential, but seems to be taken nowhere thereafter.
- The proposed workings of the traffic light system are opaque. It is not clear how these judgements will be built up from subsidiary judgements. Nor what they mean in the simplest terms of success and failure. Nor is there a â??None of the above. There is not sufficient information to make a judgementâ?•
