INTRAC M&E Workshop: Practical Responses to Current Monitoring and Evaluation Debates

Description

Tweet

A one-day workshop for M&E practitioners, civil society organisations and development agencies to debate and share their experiences. There is an increased pressure on NGOs to improve their M&E systems and often to move out of their methodological comfort zone to meet new requirements from donors and stakeholders. This event will examine the challenges faced by NGOs and their responses around four themes:

- Designing and using baselines for complex programmes
- Using Information and Communications Technology (ICT) in M&E
- Experimental and quasi-experimental methods in M&E, including randomised control trials
- M&E of advocacy

Download the **overview paper.**

Call for M&E case studies

We are looking for short case studies focusing on one or more of the four event themes (see above). The case studies will be shared and will form the basis of the discussions at the workshop.

Deadline for abstracts (max. 500 words): Friday 13 September 2013

Please email abstracts to research@intrac.org

Event bookings

Event cost: **Â£80** (Â£60 early bird booking before 19 October 2013)

Please return the **booking form** to zwilkinson@intrac.org
