Conference: Next Generation Evaluation: Embracing Complexity, Connectivity and Change

Description

Tweet

â??On Nov. 14th 2013, FSG and Stanford Social Innovation Review convened **Next Generation Evaluation: Embracing Complexity, Connectivity and Change** to discuss emerging ideas that are defining the future of social sector evaluation. The Conference brought together nearly 400 participants to learn about the trends driving the need for evaluation to evolve, the characteristics and approaches that represent Next Generation Evaluation, and potential implications for the social sector.â?•

The conference website provides 8 video records of presentations and pdf copies of many more.
