On-line training in Monitoring and Evaluation using Results Based Project Management

Description

Tweet

Date: 6th May up to 11th June, 2009
Venue: Online

Local Livelihoods will be putting on a live online Results Based Monitoring and Evaluation course to be run for 2 hours a week for six weeks. Between each weekly session there will be exercises applying the course learning to your own project. This will be supported by an interactive online database and project managements system that will enable participants to work simultaneously with the trainer with online mentoring.

The cost is Â£150.00 all you need is a PC with broadband connection.

The technology is extremely simple, just the same as opening websites, no more.

This first course is for participants in Africa and Europe. There will be a later course for participants from Asia and the Pacific.
