Date: 1-2 December
Venue: Melbourne

MSC is a powerful tool for monitoring, evaluation and organisational learning. MSC goes beyond merely capturing and documenting participantsâ?? stories of impact, to offering a means of engaging in effective dialogue. Each story represents the storytellerâ??s interpretation of impact, which is then reviewed and discussed. The process offers an opportunity for a diverse range of stakeholders to enter into a dialogue about program intention, impact and ultimately future direction. This two day workshop provides an introduction to MSC which includes designing your own MSC process. Participants will be provided with experiential learning opportunities and examples of real applications of the technique throughout the workshop.

This two day course includes the Evaluation Summit training. Evaluation Summit will take place on the second half of day two.
