Training: Logical Framework Analysis for Programme & Project Planning

Description

Tweet

Date: 26 March 2010
Venue: Banbury, Oxfordshire, UK.

LFA is the project planning tool used by major international donor organizations such as the World Bank. It allows organizations to define objectives in a simple, rigorous, logical and concise manner. It has the power to communicate complex objectives clearly and understandably on a single sheet of paper, and is a great â??aid to thinkingâ?? for project planners and stakeholders alike. LFA serves as a powerful tool for identifying: inputs, assumptions for success, and indicators for monitoring progress and evaluating performance. This course will be invaluable for anyone who needs to run, or participate in, any LFA process.The course presenter has extensive experience with LFA: having worked with a number of donor agencies (including Australian Aid, DANCED, the EU, and the World Bank) as well as with a range of NGOâ??s in a number of countries.
Course fee: Â£100.

Course registration form available here.

Please note: this course is held in Banbury, Oxfordshire, however we can also run this course at your own venue, on a date to suit â?? please contact us for details.
