Networks and evaluation

Description

Tweet

This page is about two complementary perspectives: the evaluation of networks, and how a network perspective can inform the design and evaluation of development programs (which may not have been designed as networks)

- **Coming events: about network analysis** (22/07/07)
- **The evaluation of networks** (16/06/07)
- **The use of social network analysis in evaluation** (28/04/06)
- **The use of network analysis in development projects**(16/11/07)
- **Wider references on network analysis** (16/08/07)
- **Specialists websites and Blogs** (18/08/06)
- **Journals** (11/06/05)
- **Editorial Comments**, from Rick on the Road
- **Network models of development projects: An introduction (** (20/04/06)

Please note that the contents of this page has been cut and pasted from the old MandE NEWS website. All links go to contents on the old site. The old contents will be moved to the new website as soon as possible.
