SlideShare presentations on Social Network Analysis: A list

Description

Tweet

Please note: When you visit the SlideShare website to see these slideshows you can view these presentations on screen, or download them (in some but nor all cases). You can also make public comments on any of the slides that you see, using the Comment box under the screen.

- IFAD Country Managers Net Work Shop. July 2009.98 slides
- Overview of Network Analysis Platforms (aka software). 2008?
- networks4newbies: A non-technical introduction into social network analysis. by Barry Wellman. Undated. 116 slides
- Organisational Network Analysis. Encouraging Knowledge Sharing in Professional Services Conference 2007, Sydney, Australia, Chris Fletcher. 30 Slides

If you have a presentation on social network analysis that you think visitors to the MandE NEWS website would like to see, then upload it to www.slideshare.net then send me (Rick Davies) the link to that presentation. I will then list it here, so others can find it.

PS: You can add an audio track to the presentation very easily. Use open-source Audacity to record the track in MP3 format, upload it to www.slideshare.net and then follow instructions to link the right bit of audio to the right part of the presentation. Easy!
