Publication Date: September 2007

Abstract
Are there shared elements-goals, outcomes, indicators-across different types of advocacy work? Can we create a common vocabulary for the advocacy evaluation field?

The Composite Logic Model (â??CLMâ?•) and associated materials was developed by Julia Coffman from Harvard Family Research Project; Astrid Hendricks and Barbara Masters from The California Endowment; Jackie Williams Kaye from The Atlantic Philanthropies; and Tom Kelly from the Annie E. Casey Foundation. More than 50 funders, evaluators, and advocates also lent their expertise to refine the Model.
