The Use of Social Network Analysis Tools in the Evaluation of Social Change Communications

Description

Tweet

by Rick Davies (April 2009).

This paper was produced for the Communication for Social Change Consortium, as a contribution to their paper for UNAIDS on reviewing approaches to monitoring and evaluation and advocating an expanded monitoring and evaluation framework for social change communication. All rights to this paper are with the Communication for Social Change Consortium (www.cfsc.org).]

Contents

1.Background..
2. What is Social Network Analysis? A brief introduction..
