

M&E training to be provided by Mosaic

Description

[Tweet](#)

Dear Colleague,

Time to register for Mosaic's capacity building workshops planned for this July 2008: 1) Stakeholder Participation in: Planning, Needs Assessment, Monitoring and Evaluation; 2) Results-based Management, Appreciative Inquiry and Open Space Technology; and 3) Participatory Monitoring and Evaluation.

Please jot these dates down on your calendar and forward this message to any interested colleagues. We look forward to your participation.

Stakeholder Participation in Planning, Needs Assessment, Monitoring and Evaluation using

PRA/PLA Tools

Ottawa, Canada

July 7-12, 2008

The Stakeholder Participation workshop focuses on core participatory concepts, tools and their application. This is an intensive six-day workshop set in the community to maximize learning, group interaction and networking. Topics include The Origins of Participatory Development, Learning and Application of PRA/PLA tools, the Application of Participation to Project Design, Monitoring and Evaluation, Developing Effective Facilitation Skills, Building Action Plans and Team-Building. Two-day community assignments proposed by community-based organizations in the Ottawa region will allow participants to apply tools learned in the workshop to real-life situations. This is also a great opportunity to network with other practitioners, NGOs, donors, and action researchers from all over the world.

For further information, please refer to the web site at <http://www.mosaic-net-intl.ca> or by email at wkshop05@mosaic-net-intl.ca.

Results-based Management, Appreciative Inquiry and Open Space Technology

Ottawa, Canada

July 14-18, 2008

This new workshop introduces participants to Results-based Management, Appreciative Inquiry and Open Space Technology. Demonstrate the effectiveness of your programmes with Results-based Management. Master what we mean by results, develop programme/organizational plans which are results-based and design performance monitoring systems based on indicators and participatory methods. You will also expand your repertoire of tools to also learn about Appreciative Inquiry and Open Space and how they can be applied to your organization, programme and/or project. These approaches are increasingly being used around the world to tap into new ways to do our work in ways that are more results-oriented, more appreciative and less problem-focused and more self-organized vs top down.

For further information, please refer to the web site at <http://www.mosaic-net-intl.ca> or by email at wkshop05@mosaic-net-intl.ca.

Participatory Monitoring and Evaluation

Ottawa, Canada

July 21-26,2008

Participatory Monitoring and Evaluation (PM & E) involves a different approach to project monitoring and evaluation by involving local people, project stakeholders, and development agencies deciding together about how to measure results and what actions should follow once this information has been collected and analyzed. This intensive six day experiential workshop is practically focused with daily excursions into the community and a three-day community assignment. Topics covered at the workshop include Origins of PM & E, Skills and Attributes of a PM & E facilitator, Learning PM & E Tools, Designing a Monitoring and Evaluation Framework, Quantitative and Qualitative Indicators and Building Actions Plan and much more.

All workshops organized by Mosaic are sensitive to issues of gender, ethnicity, race, and class and how these can influence outcomes and how we see the world if they are absent from our assumptions, direct participation, our analysis and conclusions.

Can't attend the workshops? Contact us to custom design a workshop to suit the specific needs of your organization.

For further information, please refer to the web site at <http://www.mosaic-net-intl.ca> or by email Rayna at wkshop05@mosaic-net-intl.ca. Send us your full mailing address and we will send you a brochure.
