Peta Sandison

This chapter draws upon a literature review, four case studies of evaluation utilisation volunteered by CAFOD, MSF(H), OCHA and USAID, semi-structured interviews with 45 evaluators, evaluation managers and evaluation â??usersâ??, a review of 30 sets of terms of reference, and an electronic survey sent to ALNAP Observer and Full Members (19 evaluation managers and 27 evaluators responded to the survey).

The researcher was supported by an advisory group composed of representatives from the British Red Cross Society, CARE International, MSF(H), the Netherlands Ministry of Foreign Affairs (Policy and Operations Evaluation Department), OCHA and ODI, plus an independent evaluation consultant and the ALNAP Secretariat.
