

Online training: M&E Fundamentals

Description

[Tweet](#)

M&E Fundamentals is a two-hour self-instructional Web course that covers the basics of program monitoring and evaluation (M&E) in the context of population, health and nutrition programs. It also defines common terms and discusses why M&E is essential for program management.

This course is designed for individuals as a self-guided resource, but it is also useful for learning or reviewing basic factual information before or during a traditional in-person training event.

To take this free course:

Go to <http://www.cpc.unc.edu/measure/training/mentor> and select “Interactive mini-course on M&E Fundamentals”

For more information about MEASURE Evaluation training materials and workshops, please visit www.cpc.unc.edu/measure/training.
