

# The Big Push Back (and push forward)

## Description

[Tweet](#)

On the 22nd September, Rosalind Eyben organised a meeting of some seventy development practitioners and researchers worried about the current trend for funding organisations to support only those programmes designed to deliver easily measurable results, although these may not support transformative processes of positive and sustainable changes in people's lives.

Following on from a major conference in May in the Netherlands about evaluative practices in relation to social transformation (<http://evaluationrevisited.wordpress.com/>), the meeting took the first steps in strategizing collectively in support of these practices. [Attached](#) is Rosalind's brief report of the meeting.
