Description

â?¦in Gender & Development Volume 22, Issue 2, July 2014 Gender, Monitoring, Evaluation and Learning Tweet
â??In this issue of G&D, we examine the topic of Gender, Monitoring, Evaluation and Learning (MEL) from a gender equality and womenâ??s rights perspective, and hope to prove that a good MEL system is an activistâ??s best friend! This unique collection of articles captures the knowledge of a range of development practitioners and womenâ??s rights activists, who write about a variety of organisational approaches to MEL. Contributors come from both the global South and the global North and have tried to share their experience accessibly, making what is often very complex and technical material as clear as possible to non-MEL specialists.â?•
