Reflecting the Past, Shaping the Future: Making AI Work for International Development

Description

USAID, September 2018. 98 pages. Available as PDF

Rick Davies comment: A very good overview, balanced, informative, with examples. Worth reading from beginning to end.

Contents

Introduction
Roadmap: How to use this document
Machine learning: Where we are and where we might be going
â€¢ ML and AI: What are they?
â€¢ How ML works: The basics
â€¢ Applications in development
â€¢ Case study: Data-driven agronomy and machine learning
at the International Center for Tropical Agriculture
â€¢ Case study: Harambee Youth Employment Accelerator
Machine learning: What can go wrong?
â€¢ Invisible minorities
â€¢ Predicting the wrong thing
â€¢ Bundling assistance and surveillance
â€¢ Malicious use
â€¢ Uneven failures and why they matter
How people influence the design and use of ML tools
â€¢ Reviewing data: How it can make all the difference
â€¢ Model-building: Why the details matter
â€¢ Integrating into practice: It's not just "Plug and Play"
Action suggestions: What development practitioners can do today
â€¢ Advocate for your problem
â€¢ Bring context to the fore
â€¢ Invest in relationships
â€¢ Critically assess ML tools
Looking forward: How to cultivate fair & inclusive ML for the future
Quick reference: Guiding questions
Appendix: Peering under the hood [gives more details on specific machine learning algorithms]
