Network data

- Data collected from the mini-surveys at the beginning and end of the workshop is available in this Excel file: Prague EES SNA Workshop Participants Survey Oct25
- Please email me with any information on any errors.
- There is one network diagram included, showing new relationships that might arise following the workshop. I may try to follow these up, to see if any of the intended contacts do eventuate.
- **CAVEAT:** This data is for the use of workshop participants only, and not to be shared with others.

Additional applications of possible interest

- Networks of self-categorised stories

My offer

- â?¦of one free hour of post-workshop support still stands. This can be provided via email or skype (which is good to combine with the use of MS SharedView)
