Email Lists

Description

Tweet

These email lists are associated with the MandE NEWS website and managed by Rick Davies:

MostSignificant Changes (MSC) email list: This has 1700+ members and going since 2000. The focus is on the use of the MSC approach to monitoring, which is qualitative and participatory and does not require the use of predefined indicators of expected change. This email list was hosted by Yahoo but is now being hosted by Google Groups. The email list continues to be managed by Rick Davies, who is invented the MSC technique. He can be contacted at rick.davies@gmail.com

ParEvo email list- for news about the development of the ParEvo web app, feedback from ParEvo users, and news on related forms of scenario planning. ParEvo is a method of developing past histories or future scenarios, using a participatory evolutionary process (hence ParEvo). The process is designed to be used by multiple people, to produce a collective goodâ?? a set of storylines about what did, or could happen. For more information about ParEvo go to https://parevo.org/ The ParEvo email list is managed by Rick Davies, who is developing ParEvo. He can be contacted at rick.davies@gmail.com
