by Kath Pasteur, 2014, 24 pages. Found here: http://www.evidenceondemand.info/livelihoods-monitoring-and-evaluation-a-rapid-desk-based-study

Abstract: â??This report is the outcome of a rapid desk study to identify and collate the current state of evidence and best practice for monitoring and evaluating programmes that aim to have a livelihoods impact. The study identifies tried and tested approaches and indicators that can be applied across a range of livelihoods programming. The main focus of the report is an annotated bibliography of literature sources relevant to the theme. The narrative report highlights key themes and examples from the literature relating to methods and indicators. This collection of resources is intended to form the starting point for a more thorough organisation and analysis of material for the final formation of a Topic Guide on Livelihoods Indicators. This report has been produced by Practical Action Consulting for Evidence on Demand with the assistance of the UK Department for International Development (DFID) contracted through the Climate, Environment, Infrastructure and Livelihoods Professional Evidence and Applied Knowledge Services (CEIL PEAKS) programme, jointly managed by HTSPE Limited and IMC Worldwide Limitedâ?•
