AidProject M+E software

Description

Tweet

Comprehensive & straightforward Monitoring & Evaluation software for Donor-funded aid projects.

AidProject M+E empowers projects to employ good practice & satisfy Donor requirements. Using AidProject M+E is relatively straightforward:

1. Define Lookup Trees & Branches to customise AidProject M+E for your project. These include LogFrame, Methods, Purposes, Gatherers, Monitors, etc.

2. Define Performance Indicators together with their Locations & Periods. Attach additional criteria (your customised Trees & Branches) for reporting & analysis.

3. Maintain Period targets & actual performance data (dates, text, money, yield, etc.).

4. Distribute performance reports to Monitors (Donors, Government, Project Management, Stakeholders, etc.) & export spreadsheets to assist Gatherers.

A licence to use AidProject M+E is absolutely free.
