Learning in Development

Description

Tweet

Olivier Serrat, Asian Development Bank, 2010

â??Learning in Development tells the story of independent evaluation in ADBâ??from its early years to the expansion of activities under a broader mandateâ??points up the application of knowledge management to sense-making, and brings to light the contribution that knowledge audits can make to organizational learning. It identifies the 10 challenges that ADB must overcome to develop as a learning organization and specifies practicable next steps to conquer each. The messages of Learning in Development will echo outside ADB and appeal to the development community and people having interest in knowledge and learning.â?•
