Call for Abstracts: Challenges of Program Evaluation Practice in Africa
The purpose of this announcement is to propose the production of a collective book on the challenges of program evaluation in Africa, regardless of the type of sector addressed (health, education, agriculture, etc.). This book is intended to be a critical and reflective analysis of how evaluations are conducted in Africa and what the challenges are of such practice. Through this process, the editors (ValÃ©ry Riddle, Seni Kouanda and Jean-FranÃ§ois KobianÃ©) wish to enable francophone publications to take their place in program evaluation literature. Reporting on evaluation practices in Africa and improving methodology by sharing experience â?? that are both tasks that could be accomplished by chapters of this collective book â?? is essential.
Authors interested in this subject and wishing to participate in this project are invited to submit a 250-word abstract by February 28, 2010 to the following addresses: valery.ridde@umontreal.ca (valery.ridde@umontreal.ca) ; skouanda@irss.bf (skouanda@irss.bf) ; jfkobiane@issp.bf (jfkobiane@issp.bf) . This step is the first of six stages in the production process ending in December 2010.
